

Datasheet

eptos™ ECLASS -CDP Connector

eptos™ Online Master Data Repositories support companies and organizations to work with consistent master data throughout the organization.

With the eptos™ ECLASS-CDP Connector, Paradine provides a standard eptos™ interface to ECLASS-CDP which allows the individual selection and download of ECLASS elements out of an ECLASS Release for take over into the customer's eptos™ system.

eptos™ Product Master Data Repository

Today, companies deploy a wide range of IT-systems to support business processes and exchange information. One of the critical success factors is the reliable administration and electronic exchange of materials master data, product master data and services master data between systems within the organization as well as to suppliers and customers. Our global markets require the support of increasing numbers of different language versions.

Errors due to misunderstandings, wrong interpretation or translations of words, features or symbols result in high expenses and drive product and service prices.

eptos™ Product Master Data Repositories support companies and organizations to overcome these problems and support the development and provision of corporate wide consolidated and multi-language product master data. Consistent master data will be provided to all connected application systems (ERP, CAX, PDM, eCatalogs, etc.). Consolidated product master data reduces the complexity of your business process.

eptos™ ECLASS-CDP Connector

ECLASS is an industry spanning global ISO/IEC-compliant and multi-lingual standard for classification and description of products and services.

ECLASS-CDP Connector allows customers to download new ECLASS elements (e.g. class, property, etc.) and mappings from the ECLASS Content Development Platform (ECLASS-CDP) and use them immediately in business processes. There is no delay for waiting on a new ECLASS release.

Elements can be selected regardless of the ECLASS Release to support upgrading to newer ECLASS Releases as well as enhancing the existing hierarchy of the company's data.

Features

- Web-Service access to ECLASS-CDP
- Individual selection and download of ECLASS elements from selected ECLASS Release
- Search algorithm for finding newer version of used ECLASS elements in ECLASS-CDP

Target group

eptos™ customers who intend to use ECLASS-CDP Connector accessing ECLASS Content Development Platform via Web-Services.

Requirement

- ECLASS-license
- ECLASS-CDP-access

Our offer

- Software-license
- Maintenance and support contract
- Documentation
- Training, workshops and webinars
