eptos™ ECLASS-CDP Connector
Download

Nothing more, just the things that you need

Introducing eptos™ ECLASS-CDP Connector[1]- an add-on tool for your eptos™ Dictionary Manager that simplifies the management of ECLASS structure elements within your organization's workflow.

With eptos™ ECLASS-CDP Connector, you can seamlessly integrate ECLASS structure elements (classes, properties, etc.) into your corporate applications and receive automatic release updates without any human interaction.

ECLASS Content Development Platform (CDP) is a web-based tool that allows manufacturers and suppliers to create and maintain product descriptions in accordance with the ECLASS standard.

eptos™ ECLASS-CDP Connector

PARADINE

Efficient Data Governance

Users will select and download only those ECLASS structure elements they need for corporate usage. This reduces the effort for maintaining the corporate dictionary significantly. Data governance for dictionary data will be made easier and transparency is increased.

Smart Connection

The eptos™ ECLASS-CDP Connector offers eptos™ users the flexibility to select only the required ECLASS content. This makes it easy to seamlessly integrate ECLASS elements (classes, properties, value lists, blocks, etc.) into corporate systems.

ECLASS Release Control

eptos™ ECLASS-CDP Connector enables version control, providing eptos™ users with the ability to query different product releases. Users can easily keep track of changes and updates, ensuring that they always have access to the latest version.

⬢ Benefits

Clearly arranged cost control

With the eptos™ ECLASS-CDP Connector, users only pay for what they need, resulting in cost optimization for their business.

ALL-in-ONE tool

Smooth integration of ECLASS into business processes:
- Remote dictionary search
- Tree navigation

Simplified integration and distribution

Manual processes of downloading, tailoring, and distributing ECLASS standard will be transformed into an integrated IT process. This allows to manage product descriptions from ECLASS to eptos™ Dictionary Manager and eptos™ SAP® Interface, streamlining the workflow and saving valuable time and resources.

Customized data management

Download of ECLASS structure elements at the time they are needed, by filtering out languages that are not needed.
This approach can help to minimize the duration of data loading and processing.

⬢ Features [2]

- o Web-Service access to ECLASS-CDP [2]
- o Individual selection and download of ECLASS structure elements from selected ECLASS Release
- o Easy update of ECLASS to the latest version

⬢ Reference customers:

We are proud that eptos™ solutions are also successfully used by:

BASF — We create chemistry | NXP | AVL | ECLASS | ZEISS | VW

BORBET | Infineon | SIEMENS | nexperia | Audi
